

## Plenary Lecture

**Prof. George Havenith**  
(Loughborough University)

**1. Lecture topic:**  
**Physiological Responses of the human body and their interaction with perception and thermal comfort of clothing**

**2. Lecture style:**  
**On-line via Zoom**

### Speakers Biography

Professor George Havenith (FACSM, FCIEHF) is presently working at Loughborough University in the UK, where he has a Chair in Environmental Physiology and Ergonomics and is director of the Environmental Ergonomics Research Centre ([www.lboro.ac.uk/eerc](http://www.lboro.ac.uk/eerc)). His research covers three main topic areas, one being Human Thermal Physiology/Environmental Ergonomics, the other being heat and mass (vapour) transfer through clothing and finally athlete exercise performance in relation to clothing.

His special contribution to these fields is the multidisciplinary integration of physiology, physics, textile science and ergonomics. His work spans experimental studies, to the development of theoretical frameworks to explain observations, and subsequently to the final application of the knowledge in the field.
