

Planning 1: Overview lectures by distinguished researchers in the world textile engineering

Prof. Satyadev ROSUNEE
(Faculty of Engineering, University
of Mauritius, Mauritius)

**1. Lecture topic:
Bio-inspired Textiles**

**2. Lecture style:
On – demand**

Speakers Biography

Satyadev has over 30 years of experience in the fashion and textile industry and in academia. He has held several leadership positions at the University of Mauritius, serving as Dean of Faculty of Engineering from 2015 to 2018. He earned his PhD from UMIST, UK, in 2002. He has supervised nine doctoral theses over the past eighteen years. Satyadev regularly advises the Ministry of Industry, Government of Mauritius on development strategy, business intelligence and industry transformation projects. He has worked as a consultant for the World Bank to plan human resource requirements and to establish a textile training centre in Antsirabe, Madagascar.

His teaching interest includes sustainable fashion and textiles, circular economy in textiles, advanced manufacturing technologies in fashion and textiles and start-ups. His research interests include biomimicry, circular economy, textile structure modelling and entrepreneurship.
